EDUCATION

Techno India University — West Bengal, India
Bachelor of Computer Science and Engineering; GPA: 8.6 — September 2023 – Present

Govt. Spon. Multipurpose School(Boys) Taki House — Kolkata, India
Higher Secondary; WBHSE - 78.8% — May 2021 – June 2023

The Scottish Church Collegiate School — Kolkata, India
Secondary; WBBSE – 76.86% — January 2015 – May 2021

SKILLS SUMMARY

- **Programming Languages:** C, C++, Java, Python, SQL
- **Frontend/Backend:** HTML, CSS, JavaScript, FastAPI
- **Machine Learning:** NumPy, Pandas, Matplotlib, Scikit-learn
- **Soft Skills:** Teamwork, Communication, Problem Solving

WORK EXPERIENCE

Google AI-ML Virtual Internship | LINK — Oct 2025 – Dec 2025

- Built and trained computer vision models using CNNs and pooling techniques for image classification tasks.
- Developed and deployed lightweight ML models using TensorFlow Lite for real-world applications.
- Worked on object detection, image processing, and classification pipelines.
- Strengthened understanding of end-to-end ML workflow including training, optimization, and deployment.

Virtual Internship in Machine Learning and Artificial Intelligence | LINK — Sep 2025 – Jan 2026

- Implemented ML models using Python and explored deep learning concepts with TensorFlow in a project-based environment.
- Applied prompt engineering to improve AI model responses and efficiency.
- Worked on real-world use cases, strengthening data analysis and model-building skills.
- Enhanced understanding of end-to-end ML workflows including data preprocessing, training, and evaluation.

PROJECTS

NIVARA - PREDICT, PREPARE, PREVENT | LINK — Aug 2026 – Sept 2026

- Developed an AI-powered platform for water logging reporting, image verification, incident detection, and risk prioritization.
- Implemented GIS-based monitoring, predictive water-spread analysis, municipal dashboards, work-order management, and image-based resolution verification.

Smart-Bus-System—IoT-Exposition | LINK — Mar 2026 – July 2026

- GPS-enabled live bus tracking provides accurate arrival predictions and improves operational visibility.
- Contactless payment system with automated fare calculation and transaction management.
- Real-time occupancy tracking ensures safety, avoids overcrowding, and enhances travel comfort.
- Data-driven insights help optimize routes, improve performance, and support better decision-making.

Heart Disease Prediction | LINK — Oct 2025 – Nov 2025

- Achieved 79% accuracy in prediction.
- Implemented secure healthcare data practices.
- Improved outcomes using predictive analysis.

CERTIFICATES

Diploma in Digital Techniques Application (DDTA) — CERTIFICATE — Apr 2023 - Mar-2024

- Learned MS Office (Excel, Word, Power Point, Access), Mobile OS, C, HTML5, OOPS with JAVA, RDBMS (MySQL)

C, Java and Python Course— CERTIFICATE — Jan 2025

- Certified by MSME (Govt. of India), Completed a 10-month training program
- Learned C, JAVA, Python basic to advance
